PEOPLE BUILDING EXCELLENCE

FLORIDA HOSPITAL TAMPA (formerly University Community Hospital)

(Photography by Otto Mendez)

UCH has joined the Florida Hospital network which is part of the **Adventist Health System**, founded about 100 years ago. Our 30 year history with University Community Health, Inc. is continuing with the **Tampa Bay Division of Florida Hospital**. We recently completed new landscaping, hardscape and decorative water fountain at the main entrance with our subcontractors. We gave you the architectural rendering of the proposed work in the last newsletter. In this issue, we give you the actual photographs of the completed project. The area is a serene spot with benches for employees, patients and guests. Also installed is a 72 foot flagpole and new site lighting. We'd like to give special recognition to **David Reed of Reed Swim Pools & Service** as well as **Shea Hughes of Sunrise Landscape** for their outstanding work on this project. **Morrick Superintendent, Wayne Smith**, acted as a construction manager for this entire project.

Welcome Changes

Morrick Construction has rehired a familiar face to our company. **Rick Mercillott** is back and is now our Vice President of Operations as we move forward into the new year. Welcome back, Rick. As a matter of fact, there have been other changes as well. **Ann Morrck** is now the Chief Financial Officer as well as Vice President of the corporation. **Carlton Morrck** has been made a Project Manager and **Cora Conte** now has the title of Director of Human and Pre-Post Construction Services.

But that's not all. We have recently moved from our 2nd floor offices to the 3rd floor of the same building and have remodeled Suite 307 to meet our current needs. You are invited to come visit us at 730 South Sterling Avenue, Suite 307, Tampa, Florida 33609.

Life's Building Blocks

CONSTRUCTIVENESS

I watched them tearing a building down, a gang of men in a busy town.

With a ho-heave-ho and a lusty yell they swung a beam and the sidewall fell.

I asked the foreman, "Are those men skilled, as the men you'd hire if you had to build?"

He gave a laugh, said "No indeed; just common labor is all I need.

I can easily wreck in a day or two what the builders have taken a year to do."

I thought to myself as I went my way, "Which of these roles have I tried to play?

Am I a builder who works with care, measuring life by the rule and square?

Am I shaping my deeds to a well-made plan, patiently doing the best I can?

Or am I a wrecker, who walks the town content with the labor of tearing down?"

Project Update

Florida Hospital is very active in upgrading their recent acquisition. Morrck Construction is part of this work as we have been asked to price and construct some very interesting projects. Among them are the laminar flow in a surgery area, Pepin Heart Center-new cabling to better serve the patients and doctors, and remodel of the nurses' administration in the MAC building.

We are proud to announce that work has started on a \$1.4 million, 12,000 SF church fellow-

ship hall in East Tampa. The owner is the **New Hope Missionary Baptist Church**. The building committee, chaired by **Deacon Stan Smith**, has really been heavily involved and is providing quick direction so as to facilitate the construction schedule. We expect to be dried-in by the end of February and the scheduled completion is mid-May of 2012. The next newsletter should have some photos for you to view when we highlight this project.

Riverview Boys and Girls Club

*Exterior Entrance & Porte Cochere
(An exterior shelter for those entering and exiting the building)*

The new **Boys & Girls Club of Riverview** has opened and is now servicing the Riverview community under the auspices of **The Boys & Girls Clubs of Tampa Bay, Inc.** We are happy to report that the club is at capacity and has a long waiting list. We would like to give a special shout out to our subcontractors on this project who worked very hard to keep a tight schedule to accommodate the projected opening date of the facility. Those include **Site & Civil, Sunrise Landscape, George Lenz Construction, Home Pride Cabinets, Polar Foam, Westfall Construction, Metropolitan Glass, S & L Stucco, Floors, Inc., Acousti Engineering, Southern Equipment Corp., CGM Services and All Phase Electric.**
